About Industry

The tissue paper industry is emerging as a new sub segment within the specialty paper market. It is at a very nascent stage but is expected to grow quickly with the population's increasing affluence, education, and higher and more disposable income levels in India. The [tissue paper industry high growth potential](#) has propelled its migration from small scale Industry to a fully grown organised industry sector in India. Some of the big companies in the paper industry are moving into the tissue paper production in India.

Revenue in the [Global Tissue & Hygiene Paper market will amount to US\\$1287m in 2019](#). The market is [expected to grow by 11.9% \(CAGR 2019-2021\)](#) annually. The market's largest segment is the Toilet Paper segment with a market volume of US\$414m in 2019. At present in India, the per capita consumption of tissue paper is low at 123 grams compared to other countries.

Asia Pacific region is projected to retain its dominance over the forecast period (2018–2025), owing to increasing demand for tissue products from economies such as China and India. This is attributed to increasing manufacturing capacity of tissue products by various market players in this region.

The Business Platform

To meet the future demand of Tissue Paper in India, the industry needs Raw Material, Advanced Technology, Latest Machinery and a Unified Business Platform to connect with global market. Against this backdrop over the years TISSUEEX & PAPEREX events have become said trusted Business Platform in India.

Tissueex aims to be the International business platform on tissue paper and the allied industry. This business event will cover the entire spectrum of products and services for this industry. It is co-located with Paperex.

Tissueex will attract key tissue industry professionals, tissue makers, converters and suppliers offering a unique opportunity for companies to stay ahead of the competition and meet face to face to discuss the needs for their current and upcoming projects.

Exhibitor Profile

- Tissue Making Machinery & Technology
- Converting Machinery & Equipments
- Packaging Machinery & Material
- Automation
- Chemicals
- Converting Supplies
- Dispenser Systems
- Drying
- Dust Control
- Engineering Services
- Environmental
- Finished Products
- Jumbo Rolls
- Knives & Blades

Visitor Profile

- Tissue Manufacturers
- Distributor, Traders & Retailers
- Plant Engineer & Manager
- Production Manager
- Research & Development
- New Investor
- Financial Services
- Agents
- Application Manager
- Commercial Director
- Environmental Engineers
- Maintenance Managers
- Mill Owners
- Process Engineers
- Product Development Manager
- Production Supervisors
- Project Manager
- Retailers
