About Industry

The tissue paper industry is emerging as a new sub segment within the specialty paper market. It is at a very nascent stage but is expected to grow quickly with the population's increasing affluence, education, and higher and more disposable income levels in India. The tissue paper industry high growth potential has propelled its migration from small scale Industry to a fully grown organised industry sector in India. Some of the big companies in the paper industry are moving into the tissue paper production in India. Asia Pacific region is projected to retain its dominance over the forecast period (2018–2025), owing to increasing demand for tissue products from economies such as China and India. This is attributed to increasing in manufacturing capacity of tissue products by various market players in this region.

India Tissue Paper Market – Key Growth Driving Forces

- The Tissue & Hygiene Paper market in India is projected to grow by **5.18% (2024-2028)** resulting in a market volume of **US\$50bn in 2028**.
- The largest segment in this market is Household Paper, with a market volume of **US\$11.59bn in 2024**.
- Hygiene is an important element in India's growth. And in view of this, many components now form a significant part in maintaining hygiene
- One major reason for its growth has been that the textile industry was fairly more expensive than the low-cost paper that is used in tissue making. Further, tissues also make use of recycled paper which is a great ecological step.

The global tissue towel market is expected to exhibit a **CAGR of 3.6%** during the forecast period (2024–2030)

India contributes **2.2%** of the global manufacturing output which is on a par with developed countries like **UK** and **France**

Global Tissue Paper market to grow at a **CAGR of 6.48% between 2024-2030**
